Subject CBS survey Public Rail Transport

Dear Sir/Madam

Reliable statistics on rail passenger transport are of great importance for the Netherlands. The European Commission needs these statistics to monitor and develop transport policies, both on a regional and trans-European scale. To produce these statistics, CBS conducts the Rail Passenger Survey. This survey concerns the number of passengers and passenger kilometres by rail with origin and/or destination in the Netherlands.

To carry out the survey, we need you to provide us with quarterly data. The quarter to which the data refer is mentioned in the Dutch letter you received from us.

*What do we ask from you?*

In the Dutch letter, you will find the deadline for submitting the data. The Dutch government considers these data so important that completion is mandatory.

*How to submit your data*

Go to [www.cbs.nl/rail](http://www.cbs.nl/rail) and download the required file.

Fill in the file and save it.

You can then upload the file to CBS.

- Go to <https://antwoord.cbs.nl>

- Log in with:

\* Your username: You will find your username in the Dutch letter you received.

\* Your password: You will find your password in the Dutch letter you received.

*Any questions?*

Visit [www.cbs.nl/rail](http://www.cbs.nl/rail) for further information. The website allows you to perform several online activities and provides answers to FAQs. You can also call us at +31 45 570 64 00. We are available from Monday to Friday, between 9:00 and 17:00 CET.

Director of Data Services, Research and Innovation

Any data you provide will be used solely towards the compilation of statistical summaries. These summaries have been composed in such a way that no data can be derived at the level of individual companies, institutions or persons. CBS may, however, be granted permission to disclose such data by the company, institution or person involved. Furthermore, no data will be provided to other (government) institutions, companies or persons from which information can be derived on individual companies, institutions or persons.
